### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims define an apparatus comprising a hood that fits in between two separating boards of a module board and a fixed jaw of a gardening scissor, wherein the hood has bulge strips on both edges that fit into notches on each of the separating boards of the module board and the fixed jaw. Budrow (6,105,256) teaches a gardening scissor with a fixed jaw and a module board that has a hood in between the separating boards, but does not teach the hood having bulge strips, and does not teach notches in the separating boards. Nordlin (20040045174) teaches a scissor-type cutter with a fixed jaw, a module board and a hood, but does not teach the module board and the jaw type composed of separating boards, and does not teach bulge strips or notches. Yang (2002012444) teaches a scissor that has a jaw, a module board and separating walls, but does not teach a hood, and does not teach notches or bulge strips. Schaffer, Jr. (3,605,879) teaches a hood with bulge strips between walls with notches, but does not teach a gardening scissor. Jelliffe (1,936,113) teaches a hood with bulge strips between walls with notches, but does not teach a gardening scissor. It would not have been obvious to combine the references with other prior art teaching in order to meet the claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
